

Letters of THE GREATEST HOLY LEAF

Translated from Persian

Your short and loving note of June 25th has been received. Its contents, though short, gave me and the ladies of the Household great joy, because they indicate that the dear friends have, with willing efforts, arisen to strengthen the foundation of love and harmony in their hearts. This will surely release our beloved Shoghi Effendi from his grief, fill his dear heart with joy and bring him to us again.

Since my last affectionate appeal to the beloved of God and 'Abdu'l-Bahá's spiritual children, the dear friends in every land have indeed shown a wonderful spirit which has inspired us all with joy and gratitude. For their confirmation and success we ardently pray at the Holy Shrines. I hope and pray that your National Spiritual Assembly will this year be favoured with divine support and unprecedented prosperity.
